2017 Organic Grain & Field Crops Conference

Transition to Organic Grains Workshop

Friday, April 7th, 2017

La Crete Heritage Centre

Thinking about growing organic crops, and not sure where to start? This introductory workshop will provide information to help you navigate the transition and certification process, learn about growing and marketing organic grains and get the industry contacts you need to get started.

Featuring Dr. Steve Shirtliffe from the University of Saskatchewan discussing weed management in organic system.
